Its wooden façade is decorated with a multitude of statuettes of monkeys and men. Stroll through the city and you'll see St. Pierre church. Stop to admire its elegant twin spires which dominate over the town. Don't miss the Hôtel-Dieu, which has retained its original decoration and many artefacts from the 18th century. ## LOCKS

On the River Saône, from St. Jean-de-Losne to Mâcon, locks are electric and operated by a lock keeper. On the Canal de Bourgogne, locks are manual and operated by a lock keeper. On the River Seille, locks are manual and are user-operated, except for the Truchère lock which is now electric and operated by the lock keeper, (09 am-12.30 pm & 1.30 pm-7 pm). Most other locks in this region are electric and user-operated; activated by turning a pole suspended above the waterway or by passing sensors. Either way, it is always a good idea to set a crew member ashore before the lock so they can receive lines and can be ready to stop the locking procedure in the event of an emergency. Please refer to the onboard Boat and Navigation Manual for more information about how to operate and pass through locks.

## OPENING TIMES

Locks are open and passable seven days a week at the following times:

SAÔNE (SEURRE, ÉCUELLES, ORMES AND DRACÉ LOCKS)	SAÔNE (ALL OTHER LOCKS)	CANAL DES VOSGES	CANAL DU RHÔNE AU RHIN	CANAL DE BOURGOGNE, CANAL DU CENTRE, SEILLE
7am-7pm	9am - 7pm	9am-6pm	7am - 7pm	9am - 6:30pm
Locks are closed on 1st May				Locks are closed on 1st May and 14th July (except on the River Seille where they remain all open except Truchere lock)

## MOORING

Moorings are plentiful and you are free to moor anywhere where you can safely access the bank, using mooring pins provided on board. We do not recommend mooring in the countryside on the Seille in spring and autumn as the river can rise or fall due to rainfall. Exceptions are: anywhere south of Seurre on the River Saône (you are advised to moor in ports / marinas or risk running aground), if there is a sign indicating to the contrary, if you are on a bend or if you are less than 50m from a structure such as a lock or a bridge. Do not moor at waiting pontoons on either side of a lock (unless you are waiting for the lock). For overnight moorings, we would recommend you moor in a town or village, whichever waterway you are on. Most have mooring bollards or rings to tie up to are usually free. Please refer to your waterways map for exact locations. You also have the option of mooring in a private marina for a charge of between €10-€20. Usually they'll have water refill points and electric hook-up facilities (not available on all boats).

## WATER

You will need to fill up your water tank once or twice during the course of a week. Water points are available at all Le Boat bases en-route, for free. Otherwise, there are several ports/marinas that will allow you to fill your tank for a charge of around €2-€5.
